Monte Carlo Campaign: T (N = 100 per sub-case)
(a) Miss-distance histogram
Count
Miss distance (m)
T1
T2
T3
T4
data1
(b) Cumulative distribution function
Cumulative probability
Miss distance (m)
Hit probability (%)
Kill radius (m)
(d) Box plot of miss distance
Miss distance (m)
Sub-case
(e) Peak normal acceleration
Count
Peak normal acceleration (g)
(f) Hit rate (kill radius = 10 m)
Hit rate (%)
SEP=4.6 m
